Appropriate engineering controls This product presents no health hazards when used according to label directions.

Individual protection measures, such as personal protective equipment

Eye protection Use safety eyewear designed to protect against splash of liquids.

Skin and body protection None under normal use conditions.

Respiratory protection Use enough ventilation, local exhaust at the arc, or both to keep the fumes and gasses below the TLV's in the workers' breathing zone and the general area. Train the worker to keep his head out of the fumes. Use MSHA/NIOSH approved or equivalent fume respirator or air supplied respirator when welding in a confined space or when local exhaust or ventilation does not keep exposure below TLV.

Hygiene measures Wash hands before breaks and at the end of workday. Handle in accordance with good industrial hygiene and safety practice. When using do not smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking.
